

**SUMMARY OF AMENDMENT TO REGULATION “PROCEDURES FOR
DETERMINATION OF MEDICAL NEED FOR NURSING HOME SERVICES”**

After promulgation of the rule, which establishes the criteria and procedures for determining medical eligibility for nursing home placement and waiver services for Medicaid, the Office of Long Term Care discovered several technical errors.

The amendment to the rule makes technical corrections, such as correct phone numbers and contact information, references to sections within the rule, and similar changes. No substantive changes are made; i.e., the criteria remain unchanged.
